## Section F1 - Undergraduate Student Satisfaction

### Results from the 2011 National Survey of Student Engagement (NSSE)

How would you evaluate your entire educational experience at this institution?

	Excellent	Good	Fair	Poor
First Year	29%	52%	16%	3%
Senior Year	26%	51%	19%	4%

If you could start over again, would you go to the same institution you are now attending?

	Definitely yes	Probably yes	Probably no	Definitely no
First Year	41%	45%	11%	3%
Senior Year	35%	43%	16%	6%

Note: The percentages shown above are estimated to be accurate to within 1.6 percentage points for first-year students, and 1.4 percentage points for senior-year students, nineteen times out of twenty.

The National Survey of Student Engagement (NSSE) gives students an opportunity to provide feedback to us about their university experience. For example, do students feel their coursework has more of an emphasis on memorizing facts than on applying theories to practical problems and new situations? Which issues does Ryerson most need to address in order to improve the academic/learning experience both inside and outside the classroom? Faculty members and administrators at Ryerson are always interested in the student perspective, and NSSE has become an integral part of planning and improvement initiatives at the University.

<b>TOTAL</b>	<b>\$20,482 to \$21,942</b>	<b>\$34,157 to \$35,617</b>

Notes:

1. These expenses are for the full 2013-14 academic year, which refers to the period of time generally extending from September to June, usually equated to two semesters or three trimesters. *Ancillary fees* include only charges that all full-time students must pay that are *not* included in tuition (e.g., registration, health, or activity fees) and do *not* include optional fees (e.g., parking, laboratory use).
2. The 2013-2014 Ryerson University Calendar fee tables can be viewed at: [https://www.ryerson.ca/currentstudents/fees\\_finances/summary/](https://www.ryerson.ca/currentstudents/fees_finances/summary/)
3. Costs may vary by program.

**Please note that for upper years, the tuition fee rates for domestic students will increase by no more than 4% per year.**

## Section K2A - Key Performance Indicators

### Employment Rates of 2010 Graduates in Undergraduate Programs

Program	Employment Rate 2 years	Employment Rate 6 months	Error +/- percentage points *
Architecture	92.1%	86.1%	6.3
Business & Commerce	95.3%	86.8%	1.8
Computer Science	88.0%	87.5%	7.8
Education	84.1%	75.4%	6.8
Engineering	89.8%	72.5%	4.9
Fine & Applied Arts	90.7%	83.1%	3.8
Food Science & Nutrition	79.3%	91.3%	9.2
Humanities	88.6%	91.1%	5.6
Journalism	95.6%	95.5%	3.6
Nursing	96.9%	84.8%	2.3
Other Health Professions	83.3%	71.1%	9.0
Physical Sciences	60.7%	34.5%	17.8
Social Sciences	90.8%	86.3%	2.4

\* The overall response rate for the survey from which these data have been collected is 31.5%. The employment rates shown are estimated to be accurate to within the number of percentage points in the Error +/- column, 19 times out of 20. The error rate shown is for whichever employment rate is lower. For example, the error rate for Architecture is based on the 6-month employment rate; Education is based on the 2-year employment rate.

Employment Rates: The employment rate is defined as the number of employed persons expressed as a *percentage* of the labour force where the labour force is those persons who were employed, or unemployed but looking for work. To determine employment rates of recent graduates, Ontario universities conducted a survey of all 2009 graduates of undergraduate degree programs. Graduates were asked questions regarding their employment situation six months and two years after graduation.

## Section K2B - Key Performance Indicators

### Degree Completion Rate for Undergraduate Cohort, Fall 2002 New, Year 1 Students

Program	Graduation Rate
Architecture	85.7%
Business & Commerce	75.4%
Computer Science	68.8%
Education	80.5%
Engineering	73.6%
Fine & Applied Arts	78.2%
Food Science & Nutrition	
Humanities	90.2%
Journalism	93.2%
Nursing	
Other Health Professions	
Physical Sciences	57.9%
Social Sciences	69.9%
Total new full-time Year 1 undergraduate students enrolled in fall 2002	3,262
Total students reported above who graduated by 2009	2,488

Graduation Rates: The MTCU has calculated graduation rates using a single entering cohort of students and determining whether or not they graduated within seven years. The methodology employed involves the selection of all new full-time, Year One undergraduate students on the official Fall 2002 enrolment file, who have a valid (and unique) student ID number, and were seeking either a bachelors or first professional degree. The subset was then matched against the records for students who received a degree (in any program) from the same institution during the most current seven year period (2002 to 2009).

## Section K3 - Retention Rates, 2011

Year 1 to Year 2 Retention Rate: **85.8%**

Retention Rate: The percentage of first-time, full-time first year students in a given fall term who return to the institution in the next fall term.

### Ryerson University Professional Accreditations

Professional accreditation is a means of testing and evaluating undergraduate educational programs and recognizing those that meet the required standards in preparing graduates for professional practice. Because its mandate is the provision of applied professional education, over the past decade the University has given priority to obtaining accreditation of its programs wherever applicable. As a result, accrediting bodies provide input to the development of curriculum in a number of Ryerson programs.

The baccalaureate degree programs in Aerospace, Chemical, Civil, Electrical, Industrial, and Mechanical Engineering are accredited by the Canadian Engineering Accreditation Board of the Canadian Council of Professional Engineers. Like graduates from other accredited engineering programs, Ryerson students must acquire four years of relevant experience and successfully complete the professional practice and ethics examination of the Professional Engineers of Ontario (PEO) before they can obtain a licence. Access to graduate school is enhanced with the accreditation.

The Faculty of Engineering and Applied Science at Ryerson University currently offers six accredited engineering programs. The new Computer Engineering program is designed in accordance with the policy statement, guidelines and requirements of the Canadian Engineering Accreditation Board (CEAB). The faculty intends to invite the CEAB to visit and officially assess the new Computer Engineering program in December 2004. In accordance with the CEAB Policy Statement, and normal practices, the CEAB accreditation visit of the new Computer Engineering program is expected to be scheduled, and undertaken, during the Fall of 2005, the final year of the first graduating class. Accreditation of the new engineering program is granted only after students have graduated from the program. The accreditation decision concerning the new Computer Engineering program is expected in June 2006, but retroactive to the date of the first graduation ceremony.

The School of Interior Design offers one of only two university-level degree programs in Canada accredited by the Foundation for Interior Design Education Research (FIDR), the recognized accrediting body in North America for interior design schools. Accreditation of the four-year program ensures that the quality of education is maintained at a high level.

The School of Nursing has maintained its accreditation status with the Canadian Association of Schools of Nursing since 1993. Successful accreditation signifies that the School has achieved a recognized level of 'excellence' based on national standards.

The School of Nutrition offers a baccalaureate degree program in Food and Nutrition. The nutrition and dietetics option was one of the first dietetics programs to have their accreditation renewed under the new Dietitians of Canada (DC) process in Canada. Eligible graduates of the accredited programs are required to complete a one-year internship or masters degree prior to becoming members of the DC. Graduates of this school continue to be very successful in their pursuit of internship and graduate school positions.

The School of Social Work's baccalaureate degree program is accredited by the Canadian Association of Schools of Social Work. Graduates and students are eligible for membership in the Ontario Association of Social Workers. Graduates are eligible for membership in the Ontario College of Social Workers and Social Service Workers. Graduates are also eligible to apply to post-BSW, Master's in Social Work programs across Canada. To receive membership in the Ontario College of Certified Social Workers, graduates must acquire two years of relevant work experience and successfully complete an examination. Graduates are eligible to apply to one-year, post-BSW, master's in social work programs across Canada.

The School of Urban and Regional Planning's four- and two-year degree programs are one of only six undergraduate programs in Canada recognized by the Canadian Institute of Planners (CIP). The accreditation means graduates have a shorter time frame required in becoming full members. The CIP is the recognized body for professional planners in Canada. These programs are also accredited by the Ontario Professional Planners Institute.

The School of Occupational and Public Health has remained the leader in undergraduate education for Canadian public health since 1960. It continues to meet unconditionally all the requirements of the Canadian Institute of Public Health Inspectors, the national accrediting body for such programs.

In September 2001, the Association of University Programs in Health Administration (AUPHA) awarded the School of Health Services Management full certification. The Certification was unconditional and extends for a period of five years. The School of Health Services Management is the first Canadian undergraduate program to be formally recognized by the AUPHA.
